25.	SPAX in industry
26.	SPAX in projects
29.	Quality is created
30.	Quality impresses

**SPAX isn't just any screw.
It is cohesion made of steel.
A promise to the world.
And every single person
who fastens with it.
Its threads - an ode to
craftsmanship. Its drive -
perfected over the course
of nearly 200 years. Its
quality - the result of tire-
less determination, talent
and the art of engineering.
In order to guarantee that
it does justice to you and
your project.**

range**

**The SPAX range.
With the unique
SPAX properties:**

**T-STAR *plus*, MULTI head,
serrations, 4CUT point.**

**SPAX concrete
screws range**

today

Wood construction partner

What makes SPAX SPAX?

1. The **T-STAR *plus*** drive:

Guarantees an even firmer (tool) hold and better SPAX guidance. For optimal force transmission – even when working overhead.

2. The **MULTI head**:

The innovative pockets on the underside of the head help to mill into wood and brake against metal.

3. The **surface**:

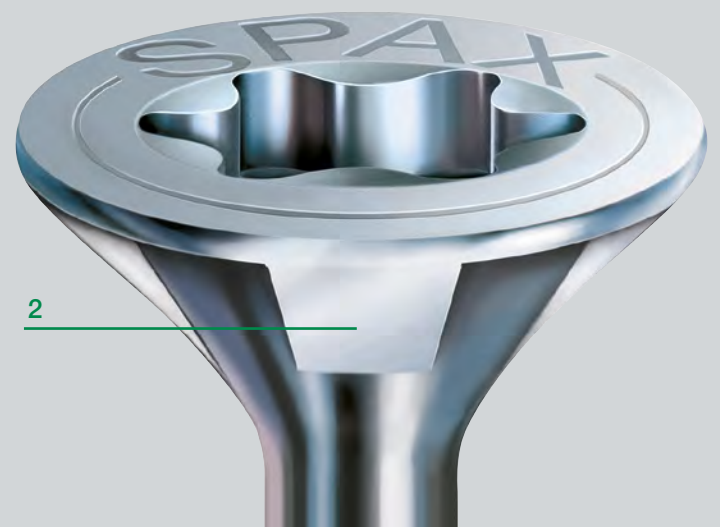

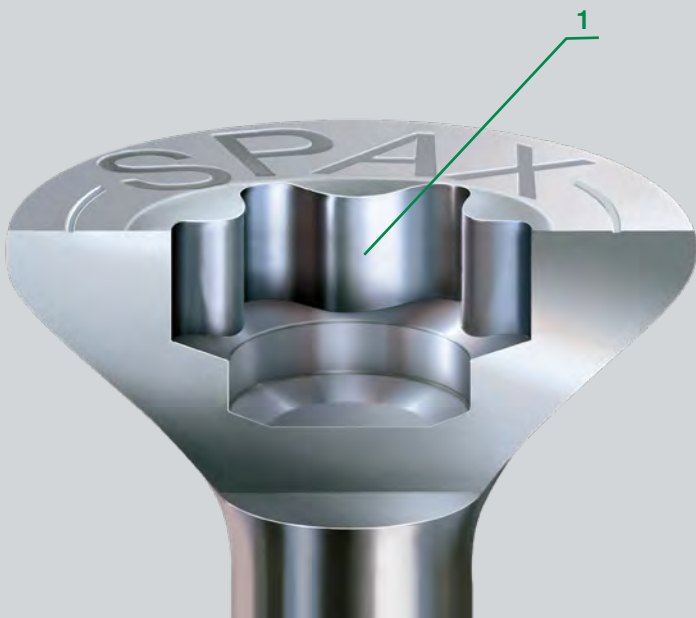

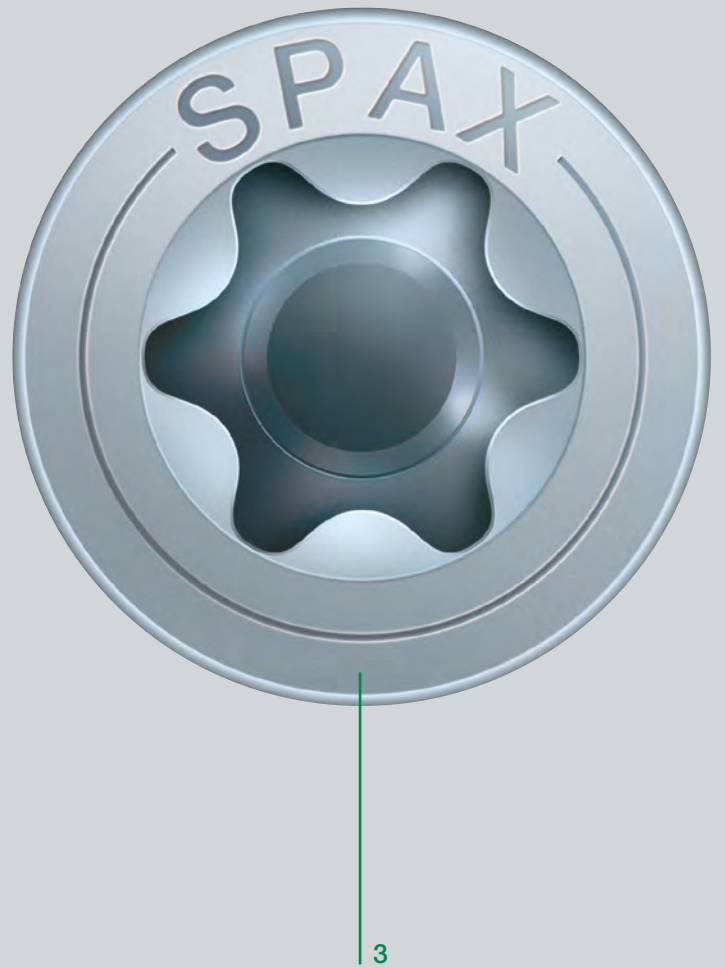

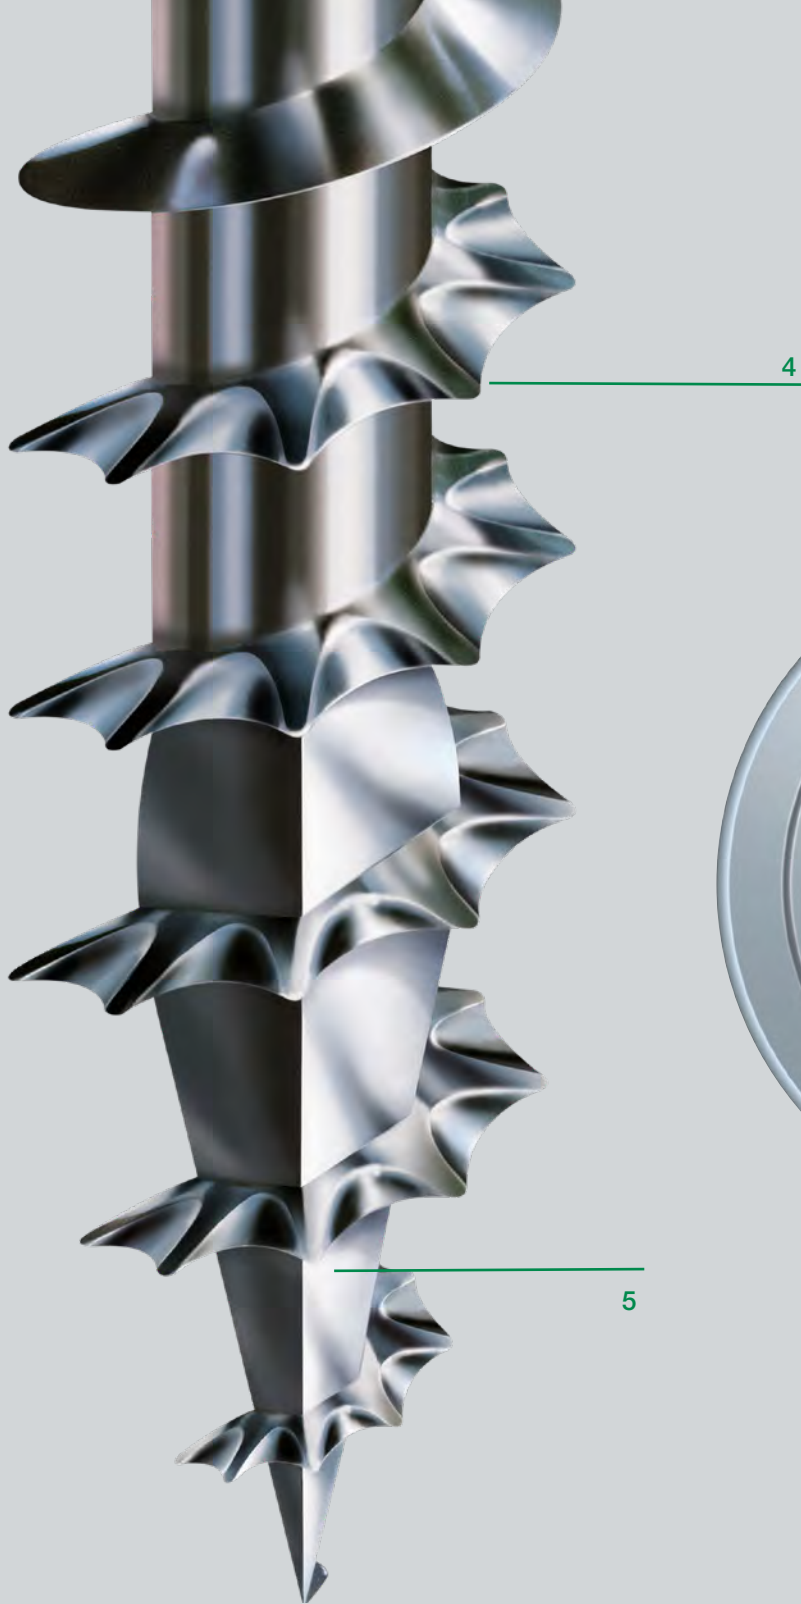

The optimised blue surface of type A9J zinc 10µm class 2 offers a 25% increase of the zinc layer and is thus extremely resistant.

4. The **serrations**:

The typical and unique SPAX ground serrations on the thread all the way to the tip ensures fast, secure gripping and effortlessly pulls the screw into the wood without pre-drilling.

5. The **4CUT point**:

The *4CUT point* significantly reduces wood splitting, removing the need for pre-drilling in most woods. From a screw length of 160 mm, the *4CUT* cutter reduces the screwing-in torque, saving the user a considerable amount of energy. This means more fastening with a single battery charge.

The SPAX

range:

the perfect

product for

every

occasion.

Universal

- Flat countersunk head
- Pan head
- Raised countersunk head
- Flange head
- Flat flange head

Special

- Exterior applications
- Plug
- Interior applications
- Dry lining

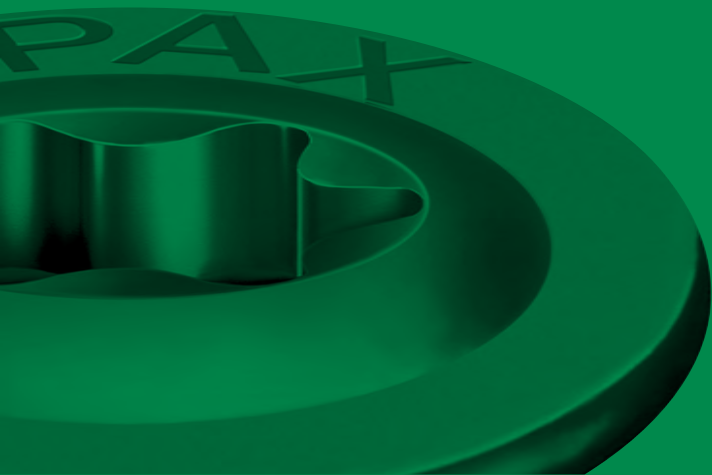

Wood connectors

- Joist hangers
- Concealed beam hangers
- Angle brackets
- Hold downs
- Other connectors
- Rafter purlin anchors/truss clips
- Hinge connectors and purlin cleats
- Nail-on plates and nail-on angle brackets
- Nails and screws

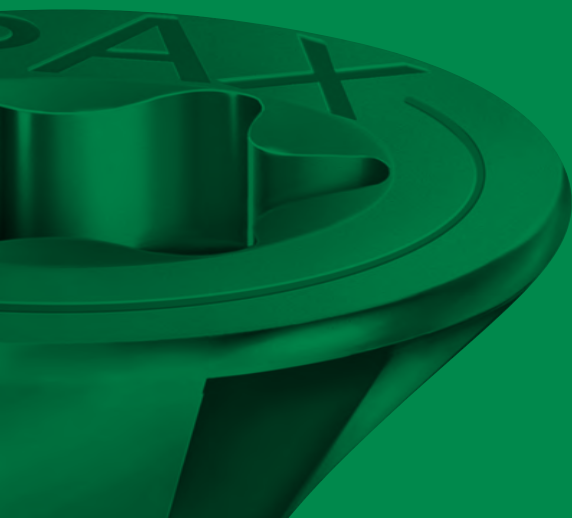

Concrete screws

- Hexagonal washer
- Flat countersunk head
- Pan head
- Large pan head
- Internal thread
- External thread

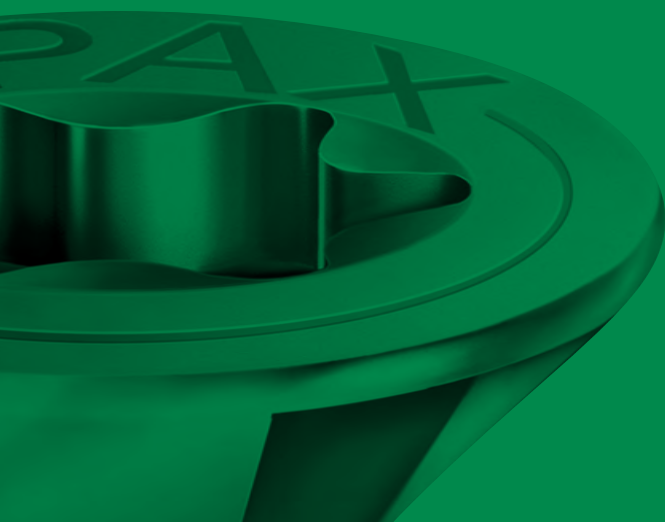

Wood construction

- Flat countersunk head
- Washer head
- Cylindrical head
- Threaded rod

Stainless steel

- Flat countersunk head
- Raised countersunk head
- Pan head
- Washer head
- Façade
- Decking

Window installation

- Flat countersunk head
- Flat countersunk head
- Flat head
- Cylindrical head
- Snap-on head

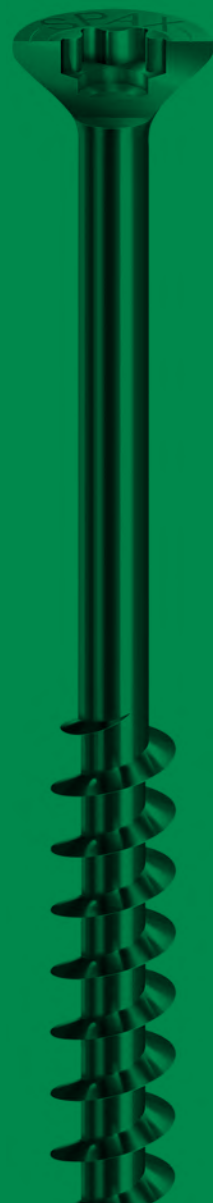

Extras

- Drive tool
- Bits
- Screw set
- Screw sleeve
- Position guide
- Decking
- Cover caps
- Assorter kits

**Work has
never
been easier.
T-STAR *plus*.**

**The T-STAR *plus*
drive ensures an
even better hold
and ultra-precise
SPAX guidance,
even when working
overhead. This
makes first-class
fastening even
better.**

Solid as a rock.

Concrete screws

by SPAX.

**In the thickest block,
in the hardest ground:
SPAX concrete screws
with hexagonal washer
and HiLo thread
geometry offer the
sturdiest hold.**

**Connecting great
things.**

**Wood connectors
by SPAX.**

**Whether wood to wood, wood to
steel or wood to concrete: the
comprehensive specialist range
of wood connectors by SPAX
offers the perfect solution for
every connection.**

SPEEDpoint

SPEEDpoint.

Your entry into

the world of

SPAX.

Quality needn't cost a lot. With the SPEEDpoint quick-drive range, you benefit from:

- A very good price-performance ratio.**
- Perfect range coordination for optimal revenue in the hardware category.**
- Sales-boosting packaging.**

All developed by SPAX, with approval / CE marking.

Quality that goes beyond the range.

Whether the SPAX Calculation Software, the SPAX Decking Portal or the dealer search, SPAX customers not only benefit from high-quality fasteners, but also helpful support and assistance.

Quality that industry trusts.

Renowned companies like Vorwerk have always trusted in the SPAX expertise and quality. Here, new ideas are implemented every day, taking meticulous care to make good things even better.

Specially developed
SPAX screw for the
Thermomix by Vorwerk.

**Strong in every
use. SPAX in
projects.**

Exceptional SPAX quality enables exceptional constructions. Like the wooden vaults in the Siegerland motorway church, for instance, the construction of which was only possible thanks to SPAX screws.
